Core Mission:

AgilePath® was founded in 2003 focused on enabling enterprise agility and operational excellence through digital transformation and associated technologies.

Differentiator and Competencies:

❖ Our team developed the IT industry's most innovative SOA adoption methodology.

❖ Recognized as the industry's mostrobust vendor-neutral SOA adoption framework by Forrester and Gartner.

❖ Expanded capabilities within other areas of technology adoption.

Roadmap and Solution Playbooks:
- Cloud Computing Migration
- Service Oriented Architecture
- Business Process Management
- IT and Data Governance
- Big Data and Analytics

Other Competencies:
- Application Development
- Data Insights
- Financial Analytics
- Business Advisory
- Management Consulting
